

**ONE STOP SOLUTION FOR SUSTAINABLE, RELIABLE &
AFFORDABLE SOLAR ENERGY FOR YOUR HOME & BUSINESS
WITH COST-EFFECTIVE, HIGH QUALITY ENERGY SOLUTIONS**

SOLAR SYSTEM SOLUTIONS

ANNUAL MAINTENANCE CONTRACT

About Company

Tropics solar solutions is founded by Experienced Engineers and provides turnkey solutions in Solar Energy space.

company that provides end-to-end services such as consultative sales, system design, equipment procurement, project management, solar panel installation, and reliable support should maintenance or warranty claims are required is known as an Engineering, Procurement, and Construction (EPC) solar company

In our organization all workers and employee are highly educated and trained in there area. **8+ year experience** workers staff.

500+ successful solar projects delivered till date.

The Sector we are in is focused mainly on lower carbon emissions, less water,consumption,lesser air pollution, energy efficiency improvement, clean energy and resource conservation. We also work closely with our clients, suppliers, and various external stakeholders to improve environmental performance.

- Deliver on-time with excellence in quality and substantial cost benefits.
- Consistently exceed client expectations.
- Constant innovation to enhance productivity and quality of services.
- Excellence in services & solutions and an optimal return on investment for our clients by employing fair business practices.

We are ideal partner to support **"Make in India"** campaign initiative.

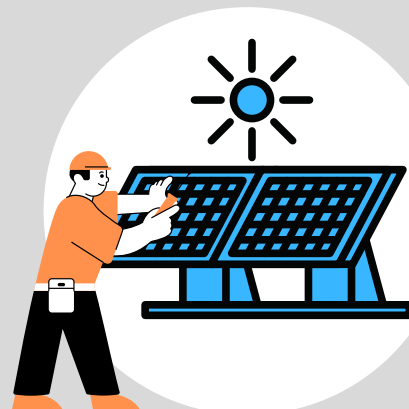

HIGH QUALITY SERVICES

TRAINED & TRUSTED PROFESSIONAL

24*7 SUPPORT

Our Services

We provide our customers with cost-effective, high quality energy solutions. Our team is dedicated to providing you the most value for money by cutting down your power bills as much as possible without compromising on performance!

- Residential solar
- Commercial Solar
- Solar Supply and Installation
- Solar Maintenance

Sustainable, Reliable & Affordable Energy!

Installing solar panels on a residential home can help reduce your power bills by up to 80% with an average return on investment of 2-4 years.

Our range of solar system options are designed and optimised with Tier-1 panels to ensure you will only get the best quality systems for your home, ensuring the right choice to reduce your bills.

Tropics solar solutions will analyse your bills and usage to make sure you acquire the best solution for your home with the best products and savings.

Commercial Solar Installations

Many businesses are choosing to source a portion or all of their electricity through solar. Saving money on operating expenses through reduced energy and demand charges is one of the key reasons to install solar for commercial use.

Residential Solar Installations

We have experience & knowledge in the installation of Solar PV panels, get suitable solar power system to your new or existing home. We can provide you with a guaranteed solar power system that will reduce your power costs for decades to come.

Solar Panel Maintenance

- The regular maintenance activity of a solar array (Solar modules connected in series), is to keep the surface (glass) dust free.
- Occasional inspection and checks of the solar module ensure performance efficiency at optimal levels.

We provide you

Sustainable Future Of Energy

We are committed to provide the best solar solutions. We start this company with a vision and determination of being among top providers, so that you can feel confident about your energy needs!

We serve in residential and commercial areas

We give unbeatable solar system prices

We have many years experience in the solar industry

Rooftop Installations:

Rooftops of small houses are best suited for the installation of small solar power system in the free space available. In general electrical load in domestic use are for Fans/AC, refrigerators, lights, televisions, etc.

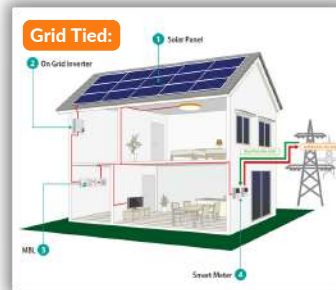

Industries, IT Parks & Malls shall install Solar power to get the potential benefits of Solar System due to heavy tariffs.

The solar system require minimum maintenance; regular cleaning of modules can keep the system up and running.

Off-Grid & Grid Tied Installations:

Off Grid solar solution - Works best in the places where there is no electricity available or there is erratic power supply

Grid-Tie / On Grid solar solution - Works best in the places where there are no power cuts or where Diesel Generator sets are used in the absence of grid supply

Benefits:

- Long Term Reliability
- Hassle Free Installation
- Reduced Carbon Footprint
- Relief From Power-cuts

The services we offer include-

1. Engineering, Procurement, Installation and Commissioning
2. Project Management Consultancy
3. Engineering Consultancy
4. Design & Fabrication of Solar Mounting Structures
5. Operation and Maintenance
6. Financing for Solar PV Project
